WAR IMMINENT.

SPECIAL TELEGRAM TO THE HERALD.

Count Bismarck "Demands" Napoleon's Reasons for Arming. The Emperor to be Held Responsible—An Instant Cessation of His Preparations Requested.

Paris, April 11, 1867. Count Bismarck, the Prussian Premier, has just dispatched an energetic diplomatic note to Paris, in which he demands to be informed of Napoleon's reasons for the sudden arming which is taking place. The Count asserts that France will be held responsible for the serious consequences which may ensue. Count Bismarck at the same time asks for the instant cessation of the warlike preparations of Napoleon.

PRUSSIAN WAR PREPARATIONS.

SPECIAL TELEGRAM TO THE HERALD.

Paris, April 11, 1867. The Prussian garrison stationed in this fortress has been reinforced by two regiments. It is a strongly fortified town of Baden, near the right bank of the Rhine, fourteen miles from Carlsruhe. Railroad Transportation.

Orders have been received here from Berlin, and transmitted to the principal railroad stations in Western Germany and Baden, to forward cars along the lines to places designated for the transportation of cavalry horses.

Prussian Armies Forwarded to France. Paris, April 11, 1867. The Prussian army is being moved to the frontier in the most rapid manner.

THE PRINCESS OF WALES.

SPECIAL TELEGRAM TO THE HERALD.

Paris, April 11, 1867. The Princess of Wales, daughter of the King of Denmark, is lying at the point of death in consequence of the effects of the illness of her husband—some time ago he was stricken with a disease which showed itself so suddenly just before his late accession.

It is feared that the performance of a surgical operation at the point of death is absolutely necessary, but the royal surgeon endures the pain consequent on the operation, and she is too weak to have chloroform administered.

The news relative to the exceedingly dangerous condition of her health is carefully kept from the public. The Prince of Wales, her husband, haunts the theatre of the city as usual.

THE FEMINIS.

SPECIAL TELEGRAM TO THE HERALD.

General-in-Chief Condon the Chief Informer of the Queen. Dublin, April 11, 1867. Patrick Condon, General-in-Chief of the Fenian Army of Liberation, and who planned and directed the late campaign in Ireland, has turned informer for the government and is to be prosecuted for high treason.

General Condon appeared in the field during the rebellion under the alias of "General" Masey.

THE EASTERN QUESTION.

SPECIAL TELEGRAM TO THE HERALD.

General-in-Chief Condon the Chief Informer of the Queen. Constantinople, April 11, 1867. The Turkish government has sent Omar Pacha to Thessaly to take command of the troops in that province.

POLITICAL INTELLIGENCE.

THE DEMOCRATIC STATE CONVENTION.

The Democratic Delegates to be Sent to the State Constitutional Convention—No Affiliation with Tammany Hall.

At a meeting of the delegates of the anti-Tammany Hall democratic organization of this city, who were refused admission to the State Convention at Albany on Wednesday last, a committee was appointed to consider the propriety of making independent nominations for delegates to the State Constitutional Convention in the several Senatorial districts of this city. This committee, in furtherance of the duty assigned to them, met last evening at the Green Room, Fourth avenue, to consider the matter in relation to a proper representation of the anti-Tammany Hall element in the coming Convention.

The meeting was organized by the appointment of a chairman and secretary.

The following resolution was submitted, read and adopted after a brief debate:—

Resolved, That in the judgment of this meeting it is not expedient to nominate or endorse the nomination of any candidate for the State Constitutional Convention, who is connected with Tammany Hall, or who is affiliated with that organization.

Mr. James Crooks was not prepared to give the whole length of the resolution. He thought the first duty of the organization should be to make an effort to secure a full democratic delegation from the city to the Constitutional Convention. They could only do this, he thought, by making a compromise with Tammany Hall, or by making a compromise with the Tammany Hall element.

Mr. William Waller looked upon the resolution as a wise and very judicious one, which ought to be adopted. He thought the Tammany Hall element was a great danger to the city, and that the only way to get rid of it was by making a compromise with them.

Mr. William Waller looked upon the resolution as a wise and very judicious one, which ought to be adopted. He thought the Tammany Hall element was a great danger to the city, and that the only way to get rid of it was by making a compromise with them.

THE UNION LEAGUE CLUB.

Reception and Speech of Senator Sherman.

The Union League Club held their usual monthly meeting yesterday evening at their rooms in Union square. There was an extremely large attendance of members, owing, probably, to the announcement that Senator Sherman would be present in the course of the evening.

Shortly after nine o'clock the Senator, together with a number of friends, arrived and was welcomed by Mr. Jay in a brief address. After expressing his thanks for the cordial reception he had received, Mr. Sherman spoke as follows:—

Gentlemen:—We have now founded an empire strong as any in the human family. We entered into the recent war to maintain the Union and make it yet stronger, greater and more powerful than ever before. We entered into the war to preserve the extension of the dominion of slavery. Thank God, slavery and all its numerous attendant evils have now disappeared. We are now a homogeneous people, with common institutions, and all the signs of the times show that our union is now made to make our victory complete by making it the basis of our republic. I look upon the second session of Congress as the consummation of the war, and I believe that all the questions which spring out of the war will soon be happily decided. Our country, however, is not yet at peace. When we commenced the war we did not intend to preserve our country; it had remained to harmonize conflicting interests and develop its resources. We are now extending our territory, and rapidly we have founded it by extending it into the future. We are now extending our territory, and rapidly we have founded it by extending it into the future.

Mr. Sherman then spoke in favor of the resolution. He thought the Tammany Hall element was a great danger to the city, and that the only way to get rid of it was by making a compromise with them.

Mr. Sherman then spoke in favor of the resolution. He thought the Tammany Hall element was a great danger to the city, and that the only way to get rid of it was by making a compromise with them.

MEXICO.

VERA CRUZ CLOSELY BESIEGED.

Recruits Brought from Cuba for Its Defence.

General Disaffection Expected Among the Garrison.

By the arrival at this port yesterday of the steamship Morro Castle, from Havana, we have news from Vera Cruz to the effect that:

The British mail packet Solon arrived on the 5th at Havana from Vera Cruz, where she left on the 28th inst. She returned with her cargo, which could not be landed, as the liberals were hoarding the place. The confirmed provisions of the city were besieged by the liberals, who were only waiting the arrival of guns to commence a bombardment.

The imperialists at Vera Cruz were generally arming themselves. General Zabala is in command. The siege is closely maintained; the water has been cut off and the last bullet in the city was killed on the 5th inst.

Over two hundred recruits have been sent to Havana, and an immediate general attack is expected to be made on the 10th inst. An immediate general attack is expected to be made on the 10th inst.

The liberals, who are so much mistaken in their impression, but "verily" that Maximilian was in the city, but as he has not been there from Vera Cruz, he is not there.

SPECIAL CORRESPONDENCE OF THE HERALD.

Feasible Relief to Vera Cruz from the Garrison. The Garrison's Strengthening Its Position. Artillery Arriving from Havana—Disaffection Among the Mexican Imperialists, &c.

Vera Cruz, March 27, 1867.

The siege of Vera Cruz is still in progress, and we are getting anxious for some definitive action on the part of the commanding forces. It would appear that the scarcity of guns among the liberals has resulted in a delay of the intended active siege, or, not expecting any cannon, they hope to starve out the garrison. This last attempt must be futile, as one side of the city is open to the sea, and as the merchants of New Orleans learn of the demands of this market for the substantial, and to life their vessels will swoop down upon it in untold fleets. Those most fortunate who reach here soon with their goods will reap a substantial harvest.

Since last writing the fortifications have been much strengthened and the means of keeping away the liberal forces amplified. For the last two or three nights the harbor has been shelled from a small distant cannon, apparently in order to keep the liberals from coming on shore, as they have dropped down into the harbor.

As of our citizens, without the formality of an introductory warning. Should the liberals bring down heavy cannon from Puebla or other points where it is supposed they have them, and commence an active and furious siege day and night, Vera Cruz will be rendered completely unmanageable as a residence. At the present writing, with but their muskets and a single gun, people have dismissed the property of removing their goods to the lowermost story of their houses, and have taken upon the most prudent precautions. Not a single night pass but we are annoyed by the throwing of cannon balls and the burning of shell, and our daily work and occupation is rendered very uncomfortable.

A liberal vessel has been seen in the harbor, and it is supposed that she will be used for the purpose of conveying provisions to the city. It is supposed that she will be used for the purpose of conveying provisions to the city.

There are now lying in the harbor war vessels of the following nations—American, English, French and Austrian. All on board are well and anxious to what the city to prevent the appearance of fever. There
